

## The Portable TurfBreeze Fan

All TurfBreeze fan models are available in portable versions to react to a club's unique situation.

The portable gas fan is ideal for courses where power availability is an issue.

The portable electric fan allows you to easily move fans whenever and wherever they are needed.

*"The fan works great – no problems. It just seems like the TurfBreeze does more. All the guys that have called me about fans, I've told them, they ought to be dealing with TurfBreeze!"*

*Mike Wooten, Superintendent,  
Cedar Ridge Golf Club,  
Broken Arrow, Oklahoma*
